

February 12, 2020

To Our Valued Customer Partners,

As you know, the interior door industry has gone through significant changes over the last few months which has resulted in major changes regarding the way manufacturers go to market.

A direct result of these changes is the availability of certain products, specifically:

- 5 panel shaker (flat panel)
- 3 panel t-style shaker
- 2 panel square top (planked)

Currently these products are on allocation from our manufacturer and are not available for the foreseeable future. We are working diligently to understand the duration of this allocation issue and will do our best to keep you informed on the status.

In the interim, we recommend the following alternatives for the products listed above:

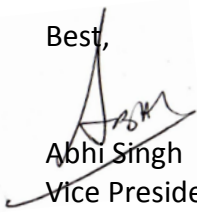

- Masonite Riverside 5 panel
 - This is a raised panel profile, not a flat panel profile
- Masonite Winslow 3 panel t-style shaker door
- We currently do not have an option for the 2 panel square top (planked)

We understand the impact these changes may have on your business and are working diligently to resolve them as in a timely manner.

We will keep you posted on progress as things continue to unfold.

If you have any questions, please contact either your Sales or Customer Service Representative or Jon Mills, Millwork Category Manager, at (573) 301-3887 or jon.mills@midambuilding.com.

Best,

Abhi Singh
