Cold Galv Primer – Product Information & Specifications

Date of issue: April 17th 2015

Item Number G161445

General Description:

A smooth cold galvanizing compound that dries to a durable, crack resistant coating to protect iron and steel surfaces.

Suggested Uses:	Benefits:
Effective touch-up for all marred or scratched hot dip	Fast Dry
galvanized surfaces	Sag-free spray
Vehicle bodies	Abrasion resistant
Storage tanks	Stops rust creepage
Bridges	May be painted over
Marine equipment	Tough, permanent hard coat
Railroad equipment	Excellent outdoor durability
Piping	Resists chemicals
Trailers	USDA authorized
Agricultural equipment	Lead free, chromate free

Additional Information:

Electrochemical galvanic action continues to protect even if scratched. Meets or exceeds the following performance requirements of MIL Specs: MIL-P-26915B, MIL-P-46105, DOD-P-21035A. Dried paint film contains a minimum of 90% zinc.

Meets or exceeds the following performance requirements:

ASTM A780 MIL-P-26915D MIL-P-46105 DOD-P-21035B SSPC-Paint 20
