

DECKMASTER™

GW5™ HIDDEN DECK FASTENING SYSTEM

Works with any 1/8" grooved soft woods

(PowerBlade router bit required)

- ▶ Western Red Cedar
- ▶ Port Orford Cedar
- ▶ Pressure Treated Pine
- ▶ Redwood

Deckmaster GW5 is an ideal deck clip system for softwoods and pressure treated deckboards. GW5's unique design securely grips deck boards locking them in place. Using the Deckmaster clip system takes the work out of gapping boards evenly or butting boards tightly together.

Available in contractor or consumer packs

Contractor Pack 875 clips, 925 screws

Consumer Pack 175 clips, 185 screws

Finishes 500 square feet of decking on 16" centers

Finishes 100 square feet of decking on 16" centers

DECKMASTER®

PowerBlade™

ROUTER BIT

PowerBlade grooves and offsets wood deck boards for proper installation and alignment using Deckmaster GW5 deck clips.

Deckmaster PowerBlade Router Bit

Deckmaster's deck clip router bit is uniquely designed for the GW5 deck clip system. The bit grooves deck boards and tapers the bottom of the board at the same time. Tapering the bottom of the deck board creates a tighter fit and allows for better drainage extending the life of the deck.

- ▶ Tapers bottom of deck board for a tighter fit
- ▶ Tool grade high carbon steel
- ▶ Contractor tested

DMRBG5 - PowerBlade Router Bit
