Add outdoor sophistication.

Transform any porch, patio or balcony into an impressive outdoor living area. An eye-catching accent for many home designs, our Balustrades, Porch Posts and Columns are beautiful and durable.

- Product Shown:**
Square Baluster – BAL2X32SQ
Top Straight Rail – BTR5X96
Bottom Straight Rail – BBR5X96
Newel Post – NP6X48
Post Top – PST7X7F
Trim Collar – TC6
Crush Block – RSB4X4X6

Balustrades, Porch Posts & Columns

How to Order

Balustrade Systems*

Fypon® Smooth Balustrades are available in three systems: 5", 7" and 12". This size designates the width of the Top and Bottom Rail. In addition to these three sizes, we offer a stone-textured system, which has a 6" wide Top and Bottom Rail.

Planning Your Layout

Balusters

For each Baluster, we have noted a center spacing dimension. This is the maximum center-to-center distance between Balusters that does not allow a 4" ball to pass through at any point. The number of Balusters you need can be found by dividing the rail span, in inches, by the center spacing dimension shown under each part.

Note: When dividing gives you a fractional result, always round up to the next whole number as shown in the example.

Rail Installation Kits

Each rail section (span between two Newel Posts) will require two Rail Installation Kits. Rail Installation Kits will connect both ends of one rail to a Newel Post or Column.

Note: Fypon Rail Installation Kits will not work on stair applications. Top and Bottom Rails do not come pre-drilled.

Newel Posts

Each Newel Post will require one Newel Post Installation Kit (NPK) to anchor the base of the Post, as well as any Post Tops, Balls or Trim Collars desired.

Balustrade System Accessories

Balustrade System accessories are available to help achieve your desired look. All Balustrade accessories are unattached and must be ordered separately.

* Always consult the local building code authority to determine suitability of products to meet specific project requirements. Images are representative of style, actual product will vary by size.

**Loctite® PL Premium® is owned by Henkel IP & Holding GmbH.

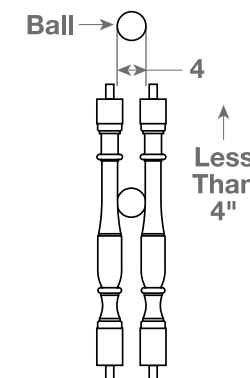

Structural Porch Posts & Columns*

Structural Porch Posts and Columns are reinforced and have load-bearing capacities as noted. Installation hardware is included. Simply choose the Column or Porch Post desired in a height that is equal to or slightly larger than the required height. Porch Posts and Columns can be trimmed to various lengths without impacting load rating. Be sure to order the appropriate quantity of Porch Posts and Columns to adequately support the weight of the load they will carry.

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 252 to order Loctite® PL Premium® Adhesive.**

Baluster Example

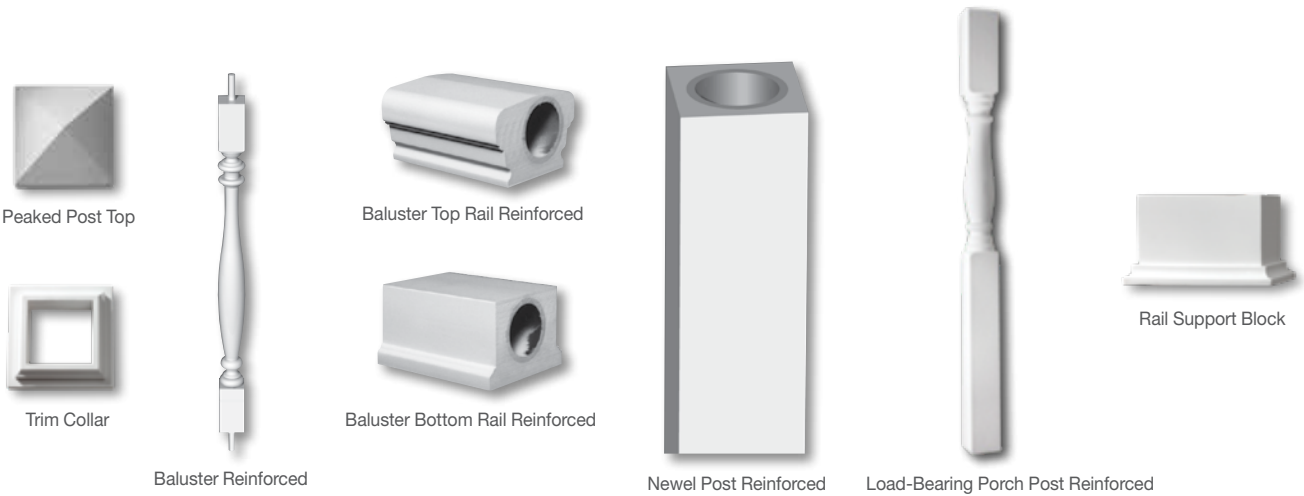

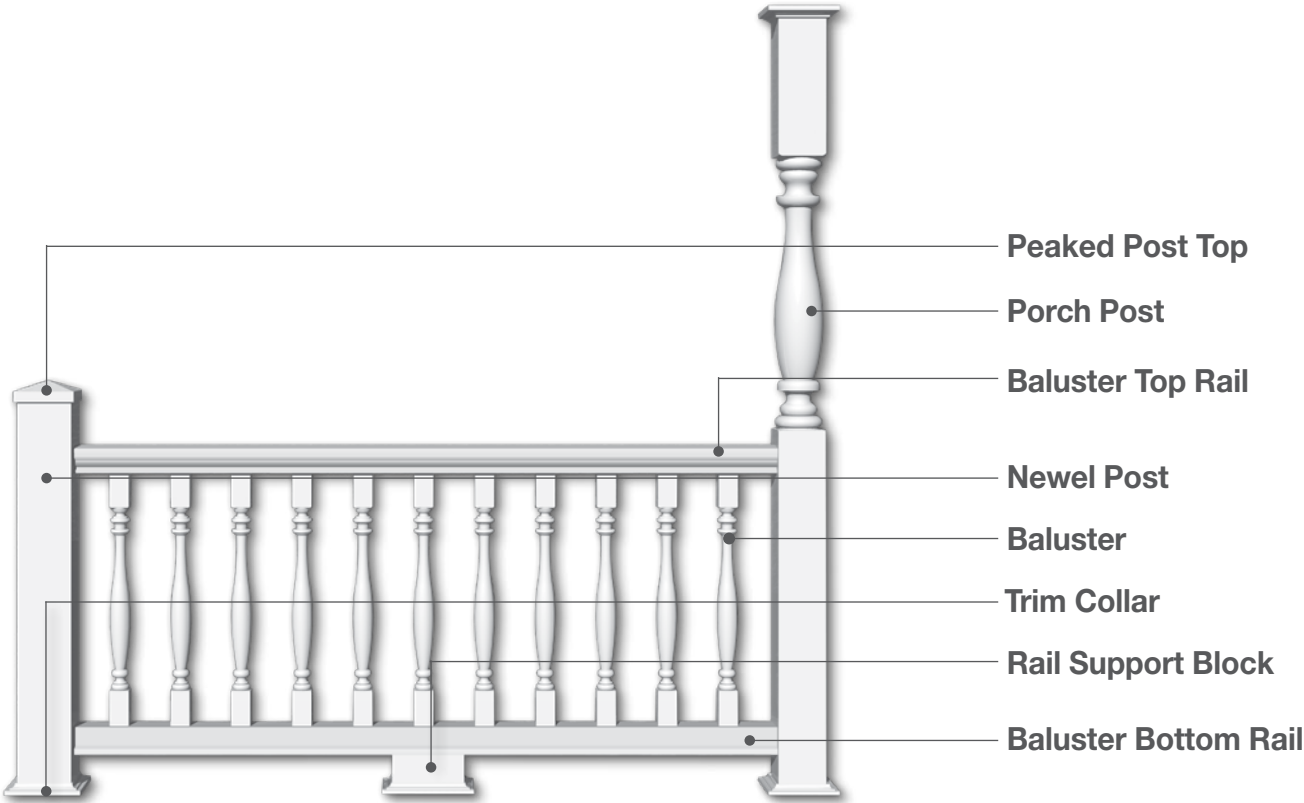

BAL3X20CC – Requires 5" on center spacing

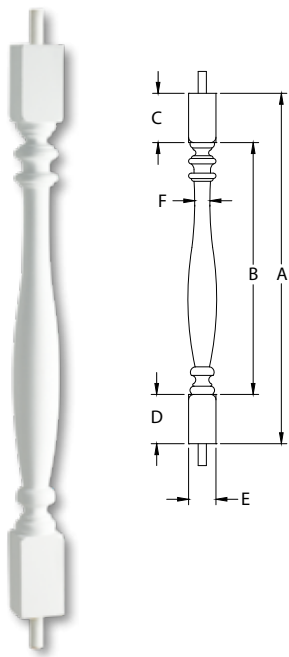

Rail Span ÷ Center Spacing =
No. of Balusters Needed

$$96" \div 5" = 19.2$$

(Round up to 20)
