LET YOUR IMAGINATION SOAR

Beams have a certain rustic charm that's hard to resist. That's why architects and designers have found more creative ways to use beams to make the ultimate statement on the interior of the home.

A mantel above a fireplace that becomes the conversation piece whenever someone walks in the room.

Create an area for shelves where your favorite family pictures are displayed or collectables that add to your decor.

Why not add a rustic lighting fixture that becomes the focus of your kitchen, dining room or even great room?

Wow your customers or visitors when they walk in your place of business with a reception area with lighted beams!

Transform any modern or rustic space with our Hand Hewn beams. They add the finishing touch to any room.
