Coverage with character.

Once you've met the structural requirements of your project, Fypon® PVC Column Wraps can be used to add an elegant finishing touch. Designed for easy installation around an existing structural support, Column Wraps are perfect for adding character to a new job or covering an existing, outdated design. Order any quantity of Fypon Column Wraps and they will ship in 5 business days or we will pay \$500 per order.

Column Wrap – PremiumSelect CWPM8X108SFT

PVC Column Wraps

How to Order

Column Wraps*

Fypon® Column Wraps are non-structural and simply wrap around an existing treated wood post or other structural support. PremiumSelect come in a complete kit (installation kit sold separately for ProSelect) that includes shaft, cap, base, installation cleat, hardware and tube of adhesive, and installation materials. Choose between various Tapered and Square styles with a height that meets or exceeds your height requirement. Flat Panel Column Wraps can be trimmed to any height, and all other styles are trimmable from the bottom of the shaft up to 3".

Column Wrap Accessories

Square Column Wraps come with the Traditional Cap and Base. Tapered Column Wraps come with the Craftsman Cap and Base. Six additional Cap and Base styles are available and can be ordered separately. Simply choose a style and specify the type (Square or Tapered) and the nominal size of the Column Wrap you are matching. Most of the Caps and Bases are constructed of PVC (unless otherwise noted) and ship in four separate pieces with pre-mitered corners.

Special Order Products

PremiumSelect products shown in the catalog are available in additional sizes. Product may be modified to minimum 6" width to a 24" maximum width. The height may also be modified with a minimum height of 48" to a maximum of 144" height (maximum 108" for tapered).

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 252 to order Loctite® PL Premium® Adhesive.**

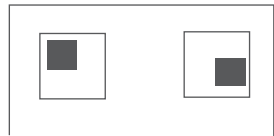

* Always consult the local building code authority to determine suitability of products to meet specific project requirements. Images are representative of style, actual product will vary by size.

** Loctite® PL Premium® is owned by Henkel IP & Holding GmbH.

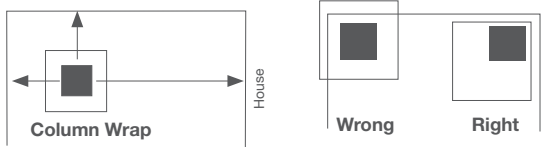

Flexible Positioning PremiumSelect Column Wraps

Fypon Column Wraps allow for flexibility in positioning. The design features installation cleats on the exterior of the shaft for PremiumSelect providing ample room around the support post. This allows for positioning adjustments to align several columns in a row or to allow for positioning close to the porch edge. Also, because the Column Wrap does not come in contact with the structural post, the integrity of the wrap is not dependent on the support.

Flexible positioning
around support post

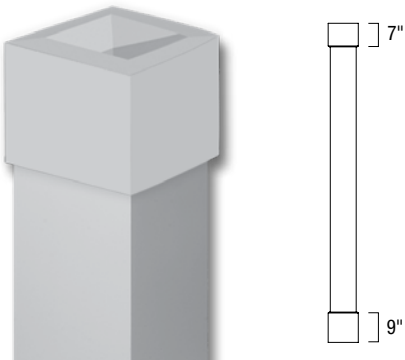

Allow adequate distance when choosing wrap width.

Before you order, you'll want to measure to make sure you have enough clear distance from the support post to the edge of the porch. The needed space is dependent on the style of column. You will need more space for tapered columns than square due to the larger base.

ProSelect Square Column Wraps

Semi-Assembled Flat Panel with Plain Cap & Base*
