

# PVC PRODUCTS - AN OVERVIEW

Fypon PVC Cellular Trim products are used on both the interior and exterior of residential and exterior of commercial projects. Our PVC Column wraps, railing systems and trim profiles, boards and sheets deliver the look and feel of traditional building materials with less maintenance.

## PRODUCT CATEGORIES

- PVC Column Wraps
- QuickRail® Synthetic Railing Systems

## FEATURES

- Closed cell product, making it resistant to moisture and insects
- PVC is lightweight, making the product easy to work with
- Never needs painting, but may be painted to achieve desired color - no sanding, priming or sealing
- Variety of sizes and styles, ready to use and easy to work with
- Resists moisture and insects as well as rotting warping, cracking, chipping and peeling
- Backed by a limited lifetime warranty for homeowners - see website for details.

## ORDERING

All product sales go through dealers in your area. To locate a dealer in your area, visit our online Dealer Locator or call 1.800.446.3040. If you would like to become a Fypon distributor, visit our Becoming a Distributor section.

## INSTALLATION

- Each piece has a consistent quality and finish, which requires no sanding, priming or sealing
- Joints between boards and sheets can easily be bonded with Devcon TrimBonder adhesive to prevent separation of joints
- Density is similar to hickory or white pine with a consistent core good for routing
- Can be cut and routed with standard woodworking tools

## PAINTING

The surface has a consistent quality and finish that never needs painting - no sanding, priming or sealing. These products may be painted to achieve desired color but is not required. Since PVC is a thermoplastic polymer, it must be painted with a paint that has a Light Reflectance Value (LRV) of 55% or higher. There are many special formulated paint systems that will allow dark paint colors to be applied to PVC with low heat absorption. Please contact your local paint supplier for more details on painting specifications for PVC surfaces.

QuickRail products should never be painted. To do so will void the limited lifetime warranty.
