

GrabberGard EFS

Endothermic Fire Spray

A Latex-based, endothermic spray designed to prevent the passage of fire, smoke, and fumes through fire-rated separations. No ladders needed. With GrabberGard EFS you can easily reach areas you could only reach with a ladder before. You will save time and money using GrabberGard EFS.

Available Forms

- ▶ 5 Gal (18.91 Lt.) Pails

Advantages

- ▶ Endothermic - absorbs heat and provides a fire barrier.
- ▶ Designed to be part of a multiple component system used with mineral wool.
- ▶ Installed with commercial power spray equipment
- ▶ Adheres easily to damp or dry surfaces of all standard construction materials.
- ▶ Accommodates up to 33% joint compression/expansion
- ▶ Water-based for easy clean-up

Applications

An effective fire-stop for joint assemblies, such as floor, floor to wall, wall, head of wall, bottom of wall, steel decking to wall, and curtain wall to slab edge, in any combination of wood, concrete, concrete block, steel and gypsum materials.
