DaBoot™

SHOX™

SHOX™ (SH ÄKS)

noun

Side rail impact absorption system that reduces damage to the first step, thus prolonging the life of the ladder.

DA BOOT™ (DƏ • BOÖT)

noun

Polypropylene copolymer upper boot provides strength, durability and fiberglass rail surface protection. Thick non-marring thermoplastic elastomer tread is bonded and mechanically fastened to the upper boot and provides a slip-resistant footing. Inside, Da Boot™ has a unique open design that allows for quick and easy visual inspection of fiberglass rail. Patent #7,000,731 B2
