

*color match program*

updated February 28, 2022

**The Mid-America® color matches for alternative manufacturer colors listed on the following pages are recommendations only. Do not make color selections based on color names alone. Please look at product samples before selecting colors to avoid confusion and color mistakes. Returns cannot be made due to color variances.**

*Note: Mid-America® does not provide solid color match recommendations for most alternative manufacturer variegated colors. Please view product samples or an alternative manufacturer fan deck to find a solid color you prefer to compliment your variegated siding color, and use this chart as a cross-reference to find the corresponding Mid-America color recommendation.*
