DECK HARDWARE

INSTALLATION

Typical CSH-TZ installation

Typical DTB-TZ installations

Typical ADTT-TZ installation

Typical PA-TZ installation

Typical C44-TZ installation

Typical PB44-6TZ installation

Typical RT7A installation

Typical SCA9-TZ installation

Typical RT15-TZ installation

The type and quantity of fasteners used to install MiTek USP products is critical to connector performance. MiTek has a full range of structurally-rated fasteners for wood frame structures. Hot-dip galvanized, stainless steel, and Gold Coat corrosion resistant finishes are available for exterior applications.

MiTek USP Deck Hardware is available in Triple Zinc (TZ) and Gold Coat (GC).

TZ galvanizing provides a prefabrication coating of 1.85 (G-185) ounces of zinc per square foot of surface area (both sides) measured in accordance with ASTM A 653. Use with Hot-dip galvanized fasteners.

Gold Coat is a proprietary multi-layer protection system. It is comprised of an organic top coat barrier layer and a zinc layer placed over a steel substrate. Use with Gold Coat or Hot-dip galvanized fasteners.
