

DURAGLASS™ ROUND NON-TAPERED COLUMNS

Standard DuraGlass™ column shafts are the same height as the listed size. Tuscan caps and bases and Attic bases go around the shaft, and do not affect the overall height. Tuscan bases are used (upside-down) as caps. Ornamental capitals are not available for non-tapered shafts.

Made from fiberglass and resin for a lightweight yet very durable and extremely strong column, these are a perfect solution for larger columns where the weight of a fiberglass-reinforced polymer (FRP) column becomes an issue.

PLAN TYPES

Poly-Classic® Duraglass™ Columns are available in the following plan types. Please specify when you order. (Fractional components shown are typical. Customer may specify actual returns, wall thicknesses, etc.)

Cap and base products for DuraGlass pultruded or resin-infused fiberglass columns are manufactured of low-maintenance materials. Tuscan cap/base and Attic base for 30" round columns are made of resin-infused fiberglass.
