

**2018**  
**Fresh Ideas for the Home**

## **ODL Builds Products That Build Value Into Your Home.**

Designs for every taste, architectural style, and home décor. Products that bring the outdoors—natural light, fresh air—indoors. Ideas that change the game. Styles from classic to craftsman, old world to contemporary.

Solutions for privacy or connection, small spaces, entryways or back porches. Decorative doorglass, transoms, sidelights, retractable screen doors, add-on blinds for doors, severe weather doorglass, and much more.

# Add Beauty and Value with Decorative Doorglass

A beautifully designed entry sets the stage for the rest of the home. It tells the world something about who you are. And creates a welcoming passage from public space to private abode. Nothing does that better than handcrafted door glass. A wise investment that improves the look and value of your home and adds beauty to everyday living.

With eight style families and over 50 doorglass designs, ODL has a doorglass design to suit you—with options that complement your home, furnishings and your personal style.

*When consumers were shown homes with a solid door compared to a door with decorative glass, the decorative glass increased the home's perceived value by an average of 4–6 percent.*

— ODL Proprietary Research

**Contemporary Style Doorglass** (p. 32-35)

**Craftsman Style Doorglass** (p. 36-39)

**Old World Style Doorglass** (p. 40-43)

# Dialogue Layered Glass

## Playful interaction and dynamic privacy

Dialogue takes on a personality of its own as layers of glass interact with one another, with light, and with movement. Each of the line's six ceramic frit patterns change form and move as light or a person's vantage point changes. Patterns come to life, shapes are revealed, and shadows dance as light and movement engage in a dialogue with the glass. Dialogue layered glass creates dynamic privacy that changes, just as the doorglass patterns do, with light and proximity.

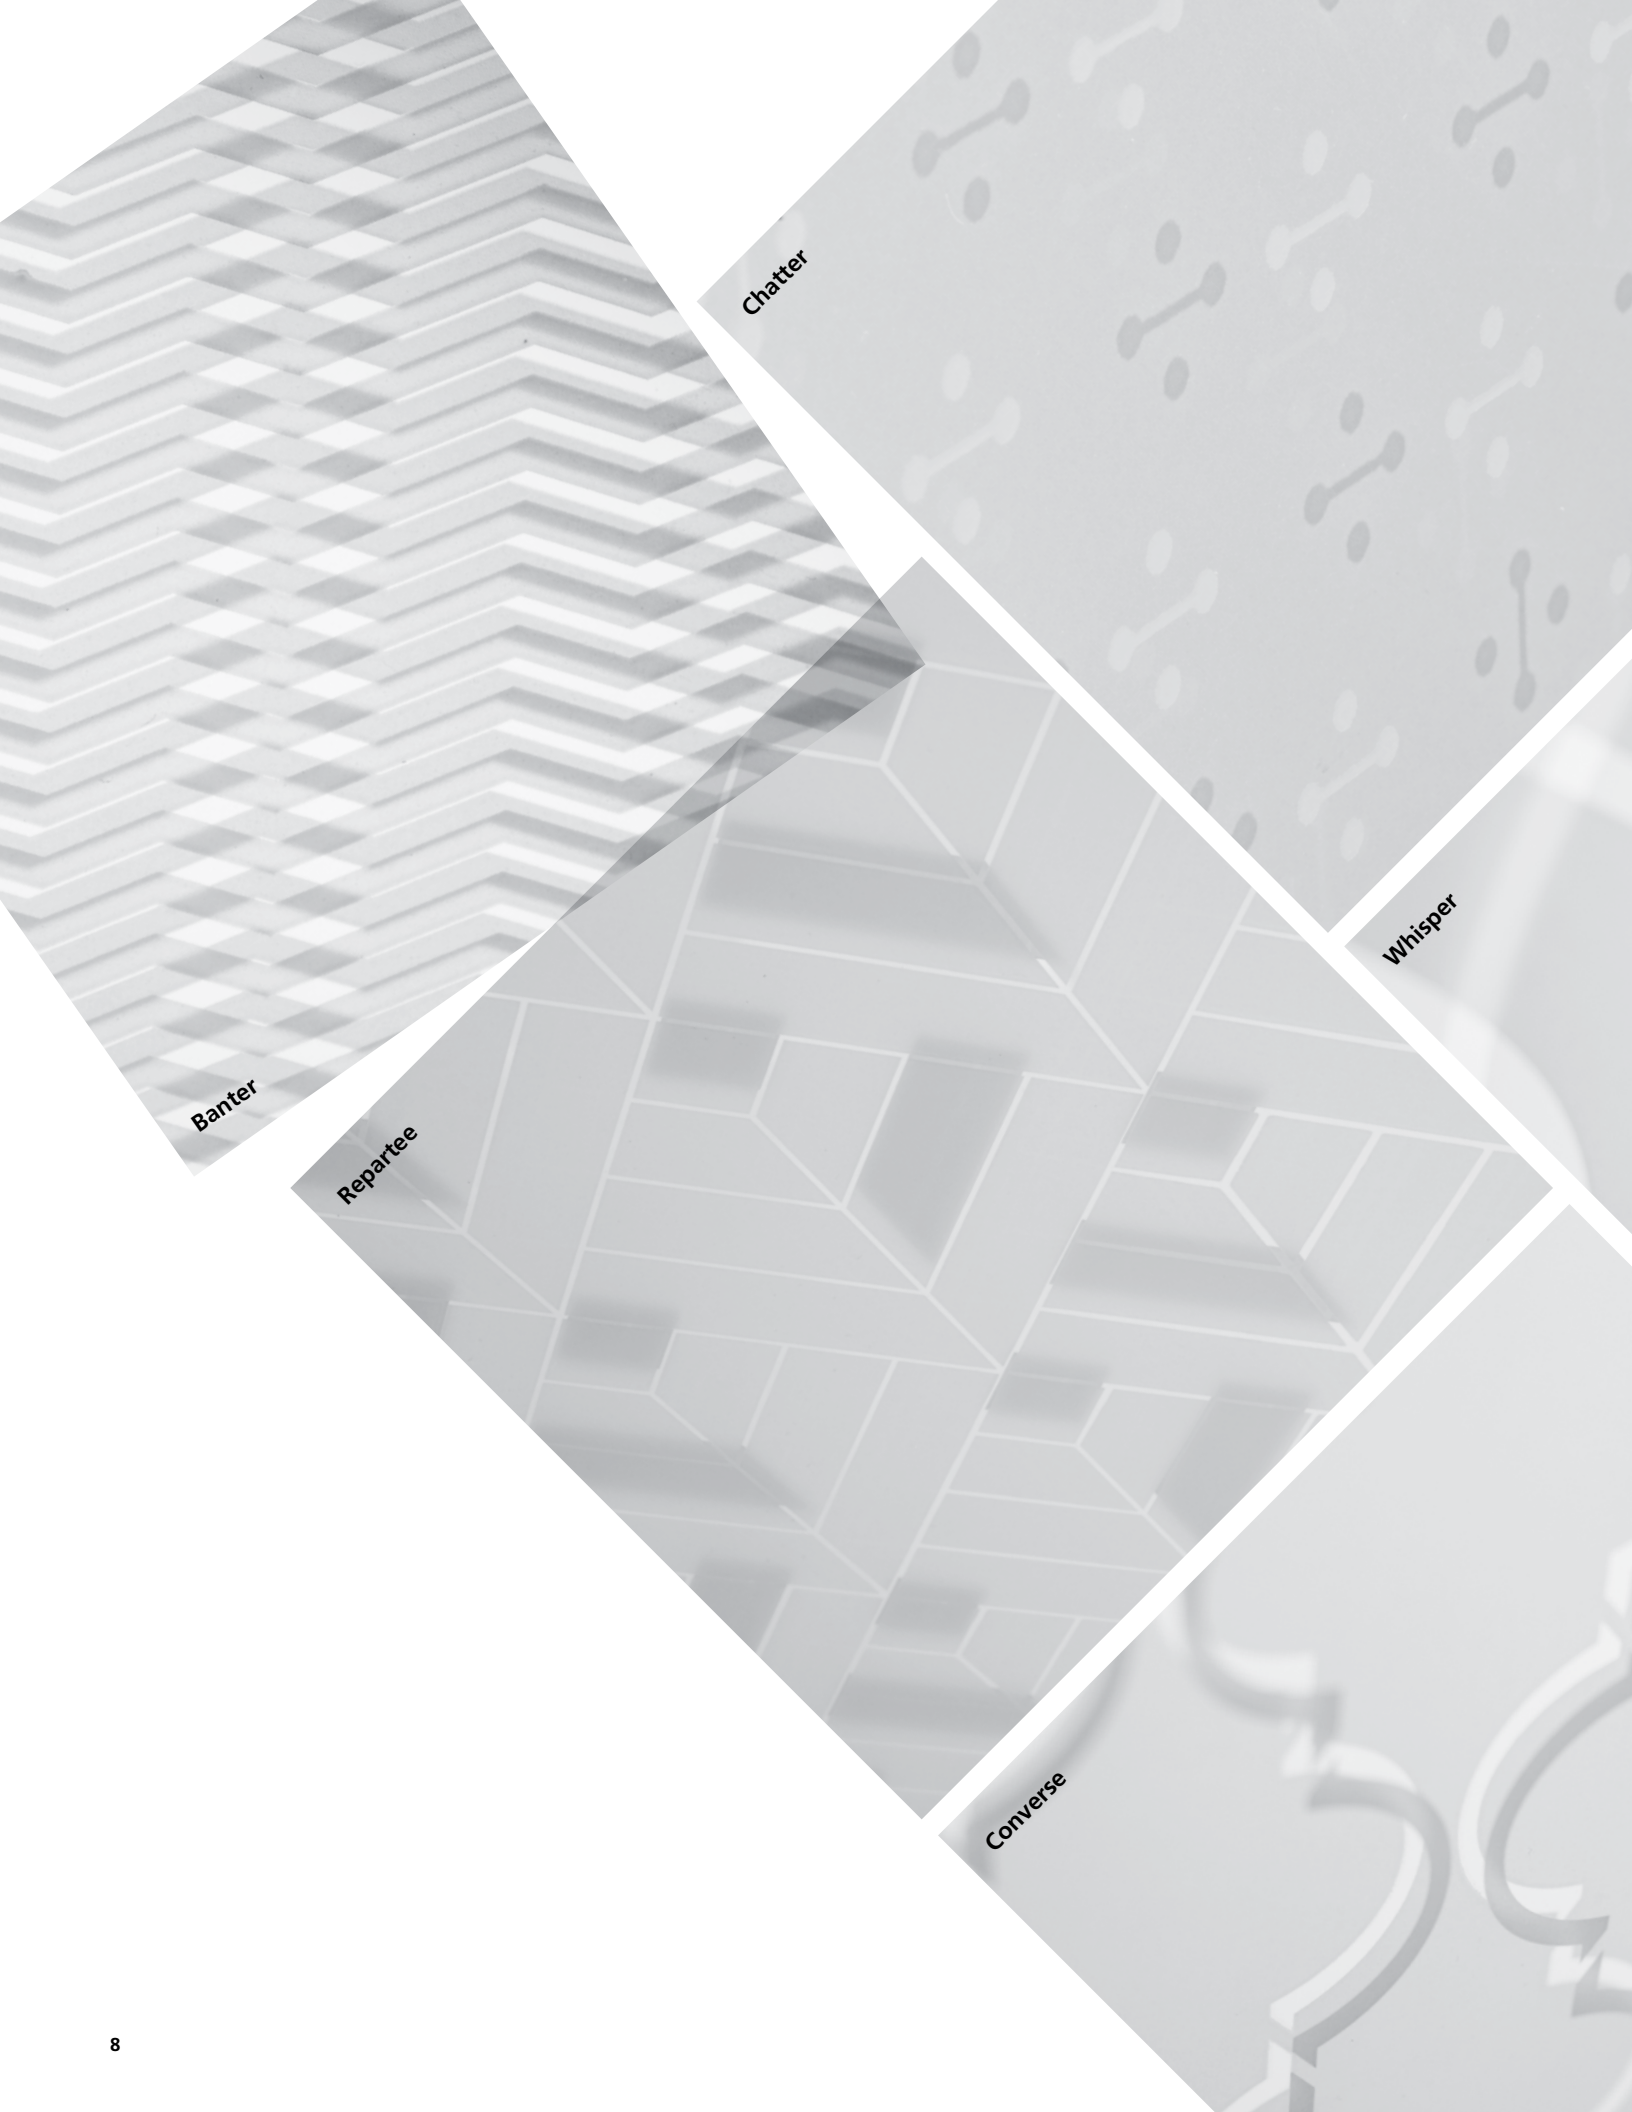

## Subtle beauty and a surprising twist

Dialogue complements a range of architectural styles and design aesthetics with doorglass patterns offering privacy and translucence. Ayako Takase and Cutter Hutton, principals of industrial design firm Observatory, created each of Dialogue's designs with an etched, subtle pattern on the outer glass layer that allows the home's architecture to take center stage while the interior layer features a bolder, pronounced pattern.

**Your destination.**

**A place you want to be.**

**A place that puts you at ease.**

**A place that draws you to it.**

# Destination Doorglass Collection

## Destination Home

Trends in home design and architecture, including entryway and door designs, show an increasing desire for minimalist styles. People are looking for clean and simple doorglass options with both linear and organic patterns. They desire doorglass designs that offer both visual privacy and access to natural light. Destination doorglass patterns offer a balance of the two; they filter glass for privacy without filtering light.

Though trends in home design change over time, one thing stays the same: A person's home is their sanctuary. It's the place where you can shake off a busy day, relax with a book, and welcome family and friends; where you are surrounded by things that make you feel good, that reflect who you are. Home is the place you want to be, your favorite destination.

## Destination doorglass for entry doors makes coming home just a little nicer.

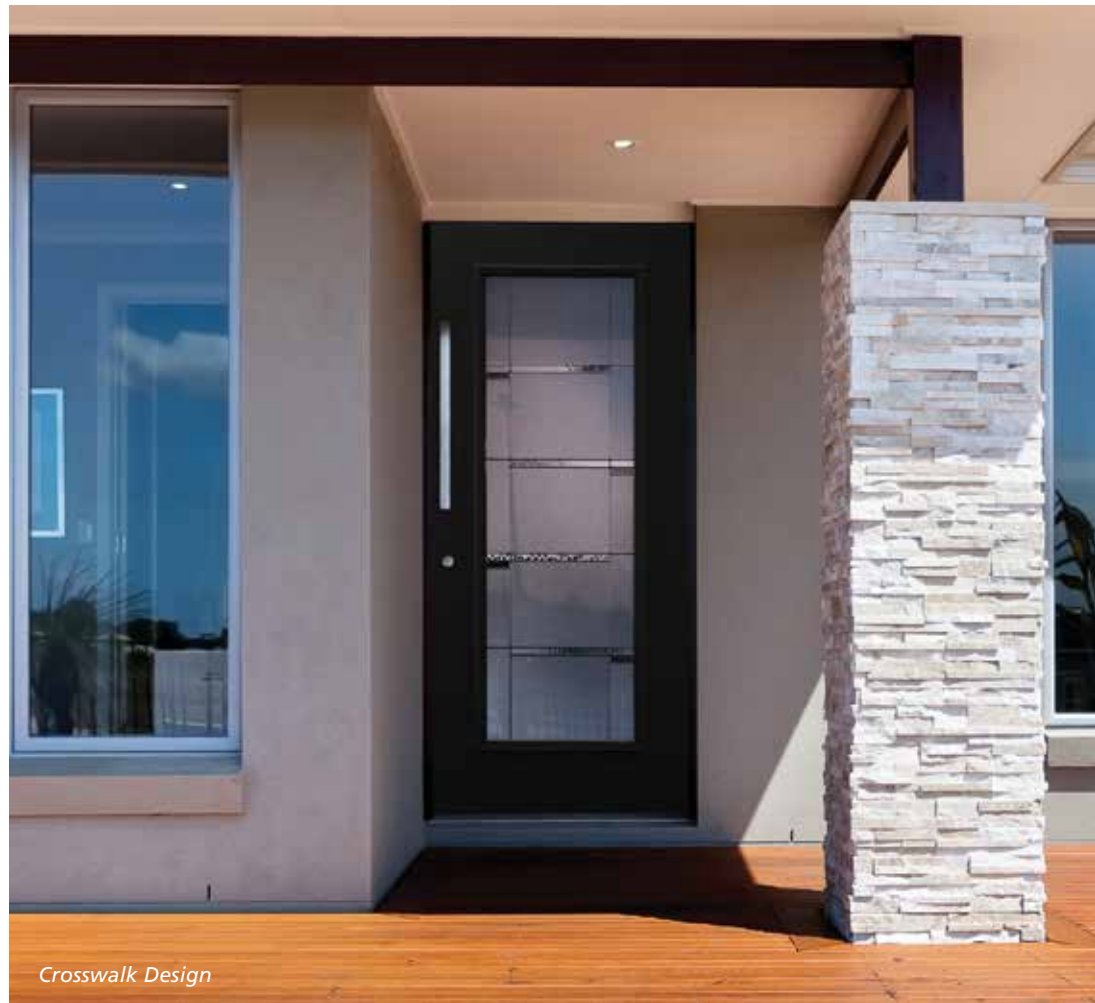

ODL's Destination line reflects the trends we are seeing in home design and entry door/doorglass preferences. Four doorglass styles have higher levels of privacy, and each offers a unique minimalist design. Unique because your home and your style are your own. Just like the destination that draws you to it.

## What does your destination look like?

## Spotlights® Doorglass

### Authentic Design for the Architecture Enthusiast™

Trends come and go. Good design lasts. As do good memories. Of homes you grew up in. Of architectural styles you've admired. Spotlights doorglass, from ODL, celebrates the best of your design history.

Left: 842-Clear x 6

## Put the spotlight on...your style, your price, your architectural expression, your entry door, your home.

Architectural style is what gives a home character. The charm of bungalows. The geometric patterns of mid-century minimalism. History revisited in Georgian revivals and Colonials. The horizontal stretch of ranch homes and the vertical stack of bi-levels and tri-levels.

Because you're inspired by your home's architecture or the vision of the one you're building, Spotlights® doorglass is for you. It's the finishing touch for the discerning homeowner who appreciates architecture and the spirit of good design.

**Model: 843**  
Size: 11" x 5"

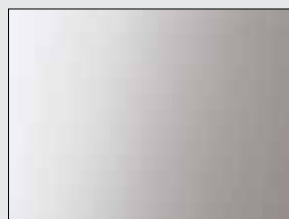

## Spotlights Glass Details

**Chain Link (CHL)**  
The spirit of Modernism, which embraced man-made materials like Chain Link's metal, lives in this Spotlights glass.

**Circuit (CCT)**  
Mid-century Modern, Art Deco, and Contemporary all left their imprint on Spotlights' Circuit glass. Its eclectic styling with silkscreen glass and clear design elements suits a range of architectural home styles.

**Clear (CL)**  
Clear glass stands the test of time when it comes to architectural styles and puts a focus on inside and outside views.

**Clear Low-E (CL-LE)**  
Low-E glass puts the spotlight on performance. It keeps the cold air out in the winter and warm air out in the summer and reduces UV rays and the fading of wall coverings and fabrics they cause.

# Mix and Match to Create a Custom Look

Spotlights® gives you options that make it easier to meet your renovation and construction goals. Five doorglass sizes and seven glass options give you flexibility to create a unique look that complements the architecture of your home. Small and large glass sizes, horizontal and vertical shapes, and choices for the number, orientation, and type of glass give you plenty of flexibility for exactly the style, privacy, and price you desire.

## Keep It Real

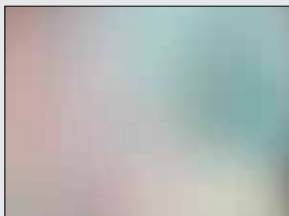

Spotlights are true to the character of your home's aesthetics. Circuit, Clear, Clear Low-E, Cubed, Frosted and Rain glass; perforated metal Chain Link inserts, and an architecturally authentic modern frame profile create the minimalist aesthetic and functional attributes you're wanting in your home.

The textured grain in Spotlights' frames is reminiscent of classic mid-century maple and birch furniture. The uniform and subtle grain provides a perfect surface for paint or stain.

### **Cubed (CU)**

Cubed glass brings to life the symmetry and geometric patterns found in the architecture of the 1920s and 1930s. Grid patterns, glass blocks, and structure are celebrated in this glass style.

### **Frosted (FSB)**

Frosted glass blends privacy with natural light, something that will find itself at home in any architectural style.

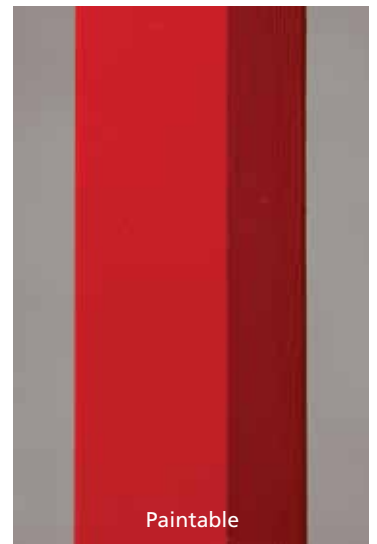

### **Rain (RN)**

All that's missing is the patter of raindrops. Rain features a vertical pattern and textured surface that create the illusion of rain trickling down a window.

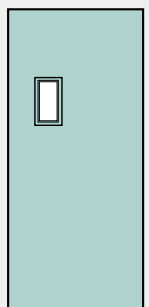

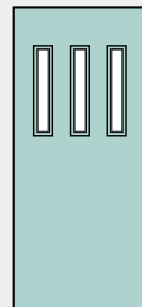

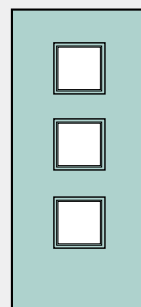

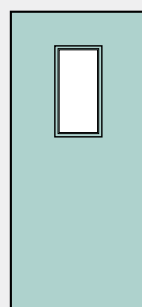

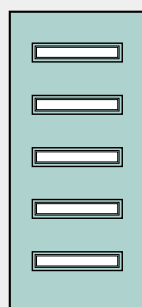

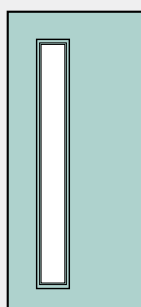

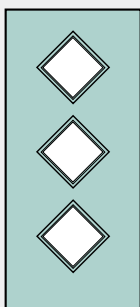

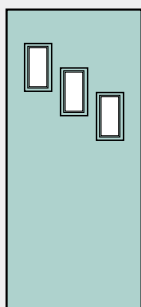

# Heighten the Performance

Spotlights® is constructed with performance features that style-savvy homeowners look for. Spotlights' FiberMate® molded and textured frame works equally well for painting or staining. FiberMate's material formulation out performs lesser quality frames: the frame's construction resists both warping and deformation from heat buildup and can be used with dark finishes.

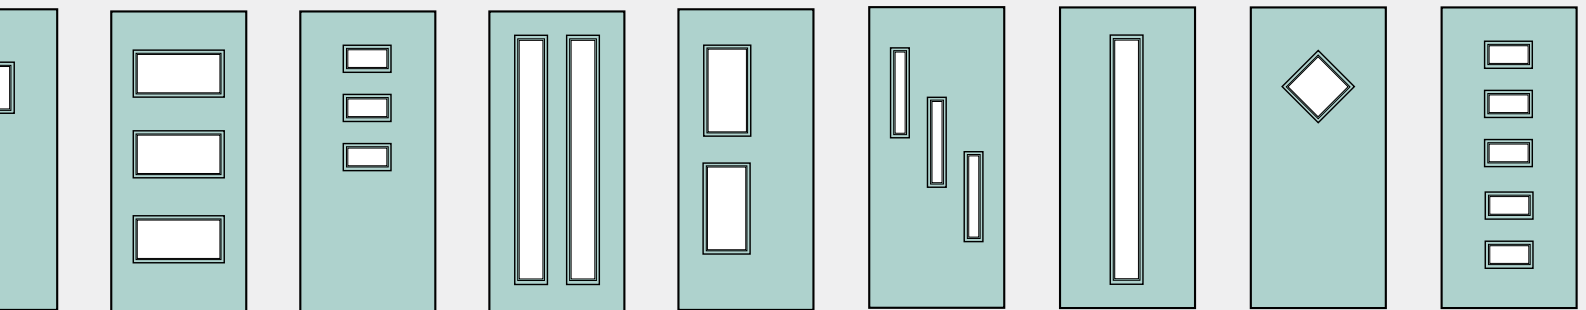

Spotlights' compression foam tape seal construction eliminates the oozing and sticky mess of wet caulk products. The frame seal's design is also engineered to extend the life of your door frame. If damaged doorglass needs to be replaced, you can do so without having to replace the frame as well. The modern Spotlights frame with compression foam tape seal is removed from the door, damaged glass repaired or replaced, and the frame reinstalled. Insulated glass and a well-constructed frame unit make Spotlights energy efficient.

## Endless Combinations

## Perspectives Textured Doorglass

**A view. A viewpoint.**

**A city skyline.**

**An attraction to cultural artifacts.**

**A swirl of clouds.**

**A cosmopolitan sensibility.**

**A colorful marketplace.**

**An appreciation for tradition and trends.**

**The front door of your home.**

**A perspective on what lies beyond.**

ODL considered views and viewpoints from around the world as we designed our Perspectives line. Textures, colors, patterns, terrain, objects, cultural influences—all led to this diverse collection of privacy glass styles for your entry door.

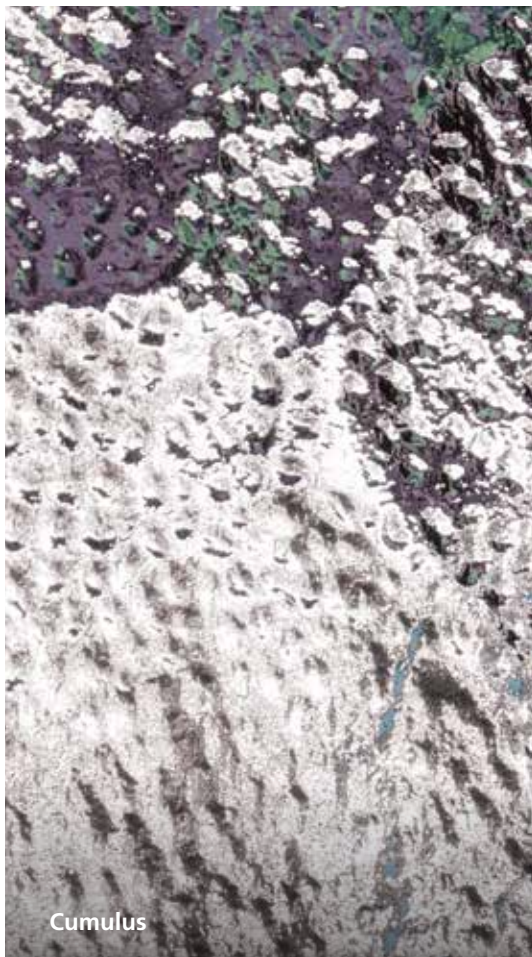

Striking the right balance between privacy and security for your home's entry and a desired level of natural light can be tricky. Move the scale too far to one side and you end up with a dark entryway. Move it too far to the other and you end with too much visibility into your home. Privacy glass offers a balance of the two. It filters glass for privacy without filtering light.

Each of Perspectives' nine styles brings a unique perspective to your door and home. Each offers an understated, minimalist approach to doorglass design. Each provides textures and patterns that create privacy. And all give you what only glass can: a dynamic and beautiful play of shadow and light.

Clear or Low-E

New Flat Profile Frame

## Severe Weather Doorglass

An attractive alternative to storm shutters. Available as an option in select decorative and clear doorglass, grilles between glass, and doorglass blinds.

## Vents

### Clear or Rain glass

Use our Vents for a boost of fresh air in workshops, garages, or your home. Ten adjustments allow you to control the flow of air. A durable UV-resistant molded frame and removable screen ease cleaning.

Clear or Low-E

Rain

## Light-Touch® Enclosed Blinds

No detail has been overlooked in our line of Light-Touch Blinds. Its ergonomically considered design places the fingertip control within easy reach. A single operation lets you tilt the blinds and raise and lower them the entire length of the doorglass—with only the slightest movement required. Even the control's shape is made to naturally fit the fingertip.

An innovative design results in stacked blinds that take up the smallest of space at the top of the doorglass when fully opened.

Privacy channels on each side of the doorglass eliminate light gaps when the blinds are closed—no streetlight shadows or sunlight glare. The glass seal is warranted for 20 years.

### Raise, Lower & Tilt—No Dusting!

- The single operator lets you raise, lower or tilt the blinds in an easy slight movement.
- Ergonomic design principles place fingertip control within easy reach.
- Blinds adjust for complete light block, and the privacy channels on each side eliminate light gaps when the blinds are closed—no street light shadows or sunlight glare.
- More privacy at night and increased sense of security.

Blinds lower neatly within full privacy channels to eliminate light gaps. Uniform color in components provides a clean aesthetic look.

Single operator to raise, lower and tilt.

Available in  
White or Tan

## Triple-Glazed Enclosed Blinds

These blinds are a perfect choice for people who value energy savings and quiet. And who doesn't? The triple-glaze design reduces heat transmission by up to 28 percent with the Low-E glass option and carries a 35 STC\* rating for sound suppression. Beyond the comforts and practicalities of a triple-glazed doorglass lie stylish details. Grilles add a warm aesthetic. And blind slats disappear behind the valance when they are fully raised for a clean, finished look. Blinds tilt and raise and lower the entire length of the doorglass. The glass seal is warranted for 20 years.

### Energy Efficient

Glass + grille + glass + blind + glass = energy efficient, sound dampening, privacy and light control, and the charm of contoured door grilles.

*\*STC = Sound Transmission Coefficient.  
See [www.odl.com](http://www.odl.com) for more information.*
