Best value sandwich garage door in its class

3100 Series

25 Gauge (.019" min)
1³/₈" Sections

3200 Series

25 Gauge (.019" min)
2" Sections

Safety, Durability, Efficiency

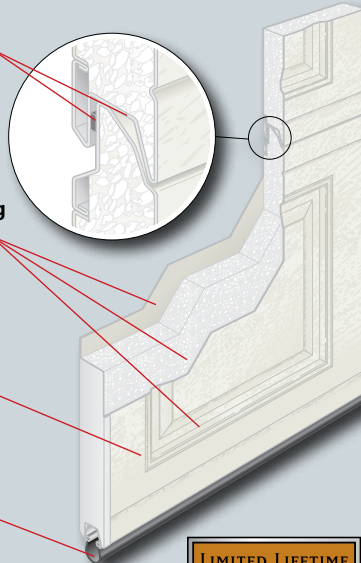

The Hörmann Orion Collection is the best choice if you are looking for an affordable insulated garage door. The virtually no-maintenance Orion Collection features a steel front and back with a polystyrene core and comes in two thicknesses: the **3100 Series** at 1³/₈" with an R-value of 6.3 or the **3200 Series** at 2" with an R-value of 8.9. The range of options gives you choices to beautify your home while increasing your savings on energy.

Deep tongue and groove section joint contribute to the door's **excellent strength**. Intermediate seals prevent air infiltration, which enhances the **insulation** properties.

The steel front and back 3-layer sandwich construction with **insulating polystyrene core** increases energy savings and provides a very smooth and quiet door operation.

Well-defined panel embossments, easy to clean woodgrain texture, galvanized and **finish painted steel** provide years of trouble-free performance and beauty.

The bottom weather seal **keeps out wind, rain, debris and other elements** for added energy savings.

Hörmann Special Features

FingerGuard™ Pinch Resistant

The FingerGuard™ section joint and hinges provide airtight seal and prevent finger injuries inside and outside.

White 11 Ball Bearing Nylon Rollers

Hörmann nylon rollers feature 11 pre-lubed ball bearings encased in a high strength steel casing that provides a quiet ride and years of reliable service.

Between Section & Side Seals

Factory installed between section weather seal and side seal offer maximum protection from the outside elements while further enhancing the insulation properties of a door.
