

Orion Collection

TimberLast™ Finish

Elegant look of wood with durability of steel

3210 Series

25 Gauge (.019" min)
2" Sections

Shown with Standard windows in Walnut finish

Safety, Durability, Beauty

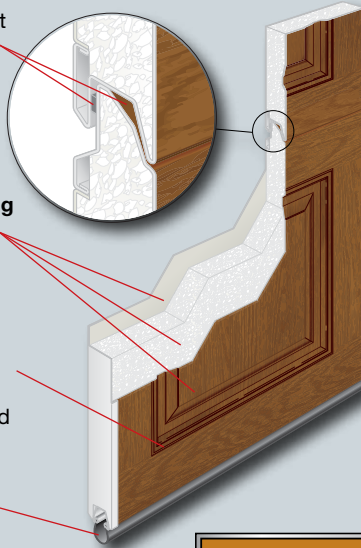

The Hörmann Orion Collection with the TimberLast™ finish offers the durability of steel with the elegant look of natural wood. The virtually no-maintenance Orion Collection features a steel front and back with a polystyrene core and comes with 2" thickness and an R-value of 8.9. The range of options gives you choices to beautify your home while increasing your savings on energy.

Deep tongue and groove section joint contribute to the door's **excellent strength**. Intermediate seals prevent air infiltration, which enhances the **insulation** properties.

The steel front and back 3-layer sandwich construction with **insulating polystyrene core** increases energy savings and provides a very smooth and quiet door operation.

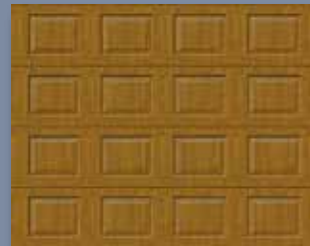

Well-defined panel embossments, galvanized and **TimberLast™ wood grain finish painted steel** provide years of trouble-free performance and beauty.

The bottom weather seal **keeps out wind, rain, debris and other elements** for added energy savings.

Hörmann Special Features

FingerGuard™ Pinch Resistant

The FingerGuard™ section joint and hinges provide air-tight seal and prevent finger injuries inside and outside.

White 11 Ball Bearing Nylon Rollers

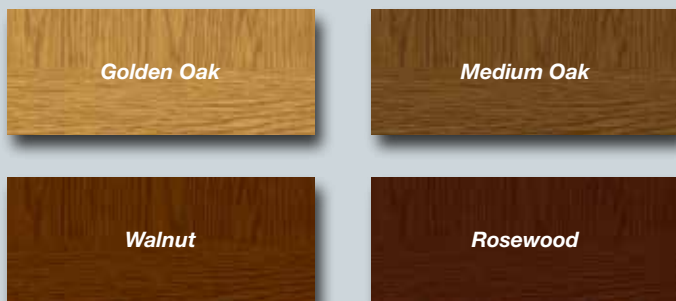

Hörmann nylon rollers feature 11 pre-lubed ball bearings encased in a high strength steel casing that provides a quiet ride and years of reliable service.

Between Section & Side Seals

Factory installed between section weather seal and side seal offer maximum protection from the outside elements while further enhancing the insulation properties of a door.
