

## The Complete Professional-Grade Corners and Trims Resource

## Maintaining Excellence

Phillips products are manufactured by the most highly developed processes available, using in-house research and extensive industry experience.

Phillips technicians and engineers are engaged in continuous analysis of manufacturing and quality control processes to ensure all products meet or exceed industry standards.

### TAPE-ON PAPER FACED CORNER BEADS

### METAL CORNER BEADS

### VINYL CORNER BEADS & TRANSITION CAPS

## TAPE-ON PAPER FACED CORNER BEADS

### Phillips kwikSTIK® Paper Faced Products:

- ▶ Rust preventative fully galvanized coating to withstand elements and adverse drying conditions
- ▶ No edge cracking
- ▶ No nail pops
- ▶ High strength proprietary paper prevents balling when sanding

### BULLNOSE 3/4" PAPER FACE SLOK TAPE

Phillips kwikSTIK® 3/4" SLOK bullnose corner bead provides a smooth, rounded finish to outside 90° corners. This product features approximately 20% thicker steel than ASTM standard C1047 minimum requirement for a strong, durable corner. Specially engineered paper provides superior mud and paint adhesion on all of Phillips paper faced products. No fasteners or nails are needed for installation with Phillips kwikSTIK® tape-on corner beads.

PART NO.	SIZE	DESCRIPTION
PBT14EGBNC8	8' x 3/4"	Bullnose paper face slok tape on CB
PBT14EGBNC9	9' x 3/4"	Bullnose paper face slok tape on CB
PBT14EGBNC10	10' x 3/4"	Bullnose paper face slok tape on CB
PBT14EGBNC12	12' x 3/4"	Bullnose paper face slok tape on CB

### OUTSIDE PAPER FACE TAPE ON MICRO BEAD

Phillips kwikSTIK® P1 Micro Bead outside corner bead is manufactured with ease and speed of installation in mind. With its smaller bead and wider flanges, this product goes up fast and requires less mudding, saving both time and money. Phillips P1 Micro Bead features approximately 20% thicker steel than ASTM standard C1047 minimum requirement for a strong, durable corner. No fasteners or nails are needed for installation. Top quality paper provides superior mud and paint adhesion.

PART NO.	SIZE	DESCRIPTION
P1M14EGBNC8	8'	Outside paper face tape on micro bead
P1M14EGBNC9	9'	Outside paper face tape on micro bead
P1M14EGBNC10	10'	Outside paper face tape on micro bead
P1M14EGBNC12	12'	Outside paper face tape on micro bead

### DELUXE 3/4" BULLNOSE PAPER FACE CB TAPE ON

Phillips kwikSTIK® Deluxe 3/4" bullnose paper face tape on bead features provides a smooth, rounded finish to outside 90° corners. No fasteners or nails are needed for installation, and specially engineered paper provides superior mud and paint adhesion.

PART NO.	SIZE	DESCRIPTION
PDT12EGBNC8	8' x 3/4"	Deluxe bullnose paper face slok tape on CB
PDT12EGBNC9	9' x 3/4"	Deluxe bullnose paper face slok tape on CB
PDT12EGBNC10	10' x 3/4"	Deluxe bullnose paper face slok tape on CB
PDT12EGBNC12	12' x 3/4"	Deluxe bullnose paper face slok tape on CB

### DELUXE PAPER FACE TAPE ON CB

Phillips kwikSTIK® Deluxe Micro Bead outside corner bead is manufactured with ease and speed of installation in mind. With its smaller bead and wider flanges, this product goes up fast and requires less mudding, saving both time and money. This product meets ASTM standard C1047. No fasteners or nails are needed for installation. Top quality paper provides superior mud and paint adhesion.

PART NO.	SIZE	DESCRIPTION
PDW12EGBNC8	8'	Delux Micro Bead paper face tape on CB
PDW12EGBNC9	9'	Delux Micro Bead paper face tape on CB
PDW12EGBNC10	10'	Delux Micro Bead paper face tape on CB
PDW12EGBNC12	12'	Delux Micro Bead paper face tape on CB

### SUPER WIDE PAPER FACE TAPE ON CB

Phillips kwikSTIK® P1 Super Wide outside corner bead features wider flanges for more complete coverage. This product is essentially the same product as P1 Deluxe Super Wide except P1 Super Wide utilizes slightly lighter steel gauge making it a more economical product.

PART NO.	SIZE	DESCRIPTION
PSW10EGBNC8	8'	Super wide paper face tape on CB
PSW10EGBNC9	9'	Super wide paper face tape on CB
PSW10EGBNC10	10'	Super wide paper face tape on CB
PSW10EGBNC12	12'	Super wide paper face tape on CB

### EXTRA WIDE PAPER FACE TAPE ON CB

Phillips kwikSTIK® P1 XW EL outside corner bead can be used on 90° outside corners with any standard drywall thickness for a clean, professional finish. This product features approximately 20% thicker steel than ASTM standard C1047 minimum requirement for a strong, durable corner. P1 XW EL is tape-on, meaning no fasteners or nails are needed for installation. Specially engineered paper provides superior mud and paint adhesion.

PART NO.	SIZE	DESCRIPTION
PEW14EGBNC8	8'	Extra wide paper face tape on CB
PEW14EGBNC9	9'	Extra wide paper face tape on CB
PEW14EGBNC10	10'	Extra wide paper face tape on CB
PEW14EGBNC12	12'	Extra wide paper face tape on CB

## METAL CORNER BEADS

### Phillips klinchSTIK® Corner Beads:

- ▶ Strong, dent resistant corner and edge reinforcements
- ▶ Durable, economical and straighter corners
- ▶ Deeply knurled mud anchors on flanges

### KLINCHSTIK CB 79 DEGREE

Phillips is the exclusive producer of klinchSTIK®. This corner bead is installed using standard industry practice with drywall nails, staples, screws or clinching tool and features deeply knurled mud anchors for perfect mud adhesion. klinchSTIK® is the ideal product for quick and easy installation with a clinching tool. Phillips klinchSTIK® corner bead features a grey galvanized surface coating.

PART NO.	SIZE	DESCRIPTION
CBK12EGB798	8'	Klinchstik CB 79 degree
CBK12EGB799	9'	Klinchstik CB 79 degree
CBK12EGB7910	10'	Klinchstik CB 79 degree
CBK12EGB7912	12'	Klinchstik CB 79 degree

### KLINCHSTIK CB

Phillips is the exclusive producer of klinchSTIK®. This corner bead is installed using standard industry practice with drywall nails, staples, screws or clinching tool and features deeply knurled mud anchors for perfect mud adhesion. klinchSTIK® is the ideal product for quick and easy installation with a clinching tool. Phillips klinchSTIK® corner bead features a grey galvanized surface coating.

PART NO.	SIZE	DESCRIPTION
CWK12EGB8	8'	Klinchstik Nail-On Metal
CWK12EGB9	9'	Klinchstik Nail-On Metal
CWK12EGB10	10'	Klinchstik Nail-On Metal
CWK12EGB12	12'	Klinchstik Nail-On Metal

### EXTRA WIDE DULL BULLNOSE 3/4"

This classic product features a grey galvanized surface coating to ensure consistent, high-quality finishing every time. Phillips bullnose metal corner bead is used for a smooth, rounded finish on exposed edges of wallboard. Like all Phillips corner beads, this bead features deeply knurled mud anchors to further ensure perfect mud adhesion.

PART NO.	SIZE	DESCRIPTION
BN7EGB8	8' x 3/4"	Extra wide dull bullnose
BN7EGB9	9' x 3/4"	Extra wide dull bullnose
BN7EGB10	10' x 3/4"	Extra wide dull bullnose
BN7EGB12	12' x 3/4"	Extra wide dull bullnose

## VINYL CORNER BEADS

### Phillips gripSTIK® Corner Beads:

- ▶ Perforated flanges for excellent joint compound adhesion as the joint compound penetrates through the bead to the drywall to support long-lasting adhesion
- ▶ Deeply knurled mud anchors on flanges enhance joint compound adhesion
- ▶ Works great for both drywall and interior veneer applications
- ▶ Proprietary paper composition promoting high wet and tear strength

### VINYL BULLNOSE CB 3/4"

Phillips gripSTIK® bullnose corner beads create a smooth, rounded look to drywall corners and are easily installed using standard industry practice. Constructed of durable vinyl, the flanges feature many perforations, deeply knurled mud anchors, and the entire product is specially textured which all greatly enhance paint and mud adhesion.

PART NO.	SIZE	DESCRIPTION
BN3VYL8	8' x 3/4"	Vinyl bullnose CB
BN3VYL9	9' x 3/4"	Vinyl bullnose CB
BN3VYL10	10' x 3/4"	Vinyl bullnose CB
BN3VYL12	12' x 3/4"	Vinyl bullnose CB

### VINYL CORNER BEAD

Phillips gripSTIK® corner bead provides a rigid protection for the exposed edges of wallboard. This easy-to-install 90° corner support can be nailed, stapled or installed with Phillips gripSTIK® multipurpose high-tack spray adhesive (see page 21 for product details). Flanges feature many perforations and deeply knurled mud anchors for excellent joint compound adhesion. The entire product is specially textured to enhance paint and mud adhesion. The standard flange length for this product is 1-1/4".

PART NO.	SIZE	DESCRIPTION
CBRYVL8	8'	Vinyl Square CB
CBRYVL9	9'	Vinyl Square CB
CBRYVL10	10'	Vinyl Square CB
CBRYVL12	12'	Vinyl Square CB

### VINYL L-TRIM

L-Trim provides a clean, sharp edge at door, window, ceiling and other terminations. Install using standard industry practice. The many perforations and raised shoulder enhance strong compound adhesion and provide for a flush finish. Its deeply knurled mud anchors and specially textured surface provide superior paint and mud adhesion. Phillips offers this product in 1/2" (LT5VYL) and 5/8" (LT6VYL).

PART NO.	SIZE	DESCRIPTION
PL114EGB8	8'	1/2" kwikSTIK P4 L-Trim
PL114EGB9	9'	1/2" kwikSTIK P4 L-Trim
PL114EGB10	10'	1/2" kwikSTIK P4 L-Trim
PL114EGB12	12'	1/2" kwikSTIK P4 L-Trim
PL514EGB8	8'	5/8" kwikSTIK P4 L-Trim
PL514EGB9	9'	5/8" kwikSTIK P4 L-Trim
PL514EGB10	10'	5/8" kwikSTIK P4 L-Trim
PL514EGB12	12'	5/8" kwikSTIK P4 L-Trim

## VINYL CORNER AND TRANSITION CAPS

### Phillips gripSTIK® Corner & Transition Caps:

- ▶ Over 50 different corner and transition caps available
- ▶ Works great with Phillips metal, vinyl or paper faced metal bullnose corner beads
- ▶ U.S. Patents: RE34,547; 6,691,476; D487,520; D487,156; D501,050 and D486,920

### 3/4 " 3-WAY CORNER

Phillips gripSTIK® 3/4" 3-way corner is designed to easily finish three intersecting bullnose 90° outside corners. This product eliminates the need for mitering and corner filling, saving time and reducing waste. Alignment tabs make it easy to match with Phillips metal, vinyl or paper faced metal bullnose corner beads. Perforated to enhance mud adhesion. Also available in 1/2" (CAP345) and 1-1/2" (CAP387 - see below) radius. Packaging is 50 pieces per carton.

**Part Number: CAP385**

### 1- 1/2" 3-WAY CORNER

Phillips gripSTIK® 1-1/2" 3-way corner is designed to easily finish three intersecting bullnose 90° outside corners. This product eliminates the need for mitering and corner filling, saving time and reducing waste. Alignment tabs make it easy to match with Phillips metal, vinyl or paper faced metal bullnose corner beads. Perforated to enhance mud adhesion. Also available in 1/2" (CAP345) and 3/4" (CAP385 - see above) radius. Packaging is 50 pieces per carton.

**Part Number: CAP387**

### 3/4 " 3-WAY SPLAY CORNER

Phillips gripSTIK® 3/4" 3-way splay corner is designed to easily finish where two 90° outside 3/4" bullnose corners intersect with one outside bullnose splay corner. This product eliminates the need for mitering and corner filling, saving time and reducing waste. Alignment tabs make it easy to match with Phillips metal, vinyl or paper faced metal bullnose corner beads. Perforated to enhance mud adhesion. Also available in 1-1/2" (CAP187 - see below) radius. Packaging is 50 pieces per carton.

**Part Number: CAP135**

### 1- 1/2" 3-WAY SPLAY CORNER

Phillips gripSTIK® 1-1/2" 3-way off-angle corner is designed to easily finish where two 90° outside 1-1/2" bullnose corners intersect with one outside bullnose splay corner. This product eliminates the need for mitering and corner filling, saving time and reducing waste. Alignment tabs make it easy to match with Phillips metal, vinyl or paper faced metal bullnose corner beads. Perforated to enhance mud adhesion. Also available in 3/4" (CAP135 - see above) radius. Packaging is 50 pieces per carton.

**Part Number: CAP187**

3/4" 2-Way Corner

**Part Number: CAP285**

1-1/2" 2-Way Corner

**Part Number: CAP285**

## 2- WAY CORNER

Phillips gripSTIK® 2-way corners are designed to easily finish two intersecting 90° outside bullnose corners. This product works great to cap corners of windows, closets, doorways, skylights and other areas. Corner caps eliminate the need for mitering and corner filling, saving time and reducing waste. Perforated to enhance mud adhesion. Alignment tabs make it easy to match with Phillips metal, vinyl or paper faced metal bullnose corner beads. Available in 3/8" (Mini), 3/4" (CAP285) and 1-1/2" (CAP287). Packaging is 50 pieces

3/4" 2-Way Splay Corner

## 2- WAY SPLAY CORNER

Phillips gripSTIK® 2-way splay corners are designed to easily finish where two 90° outside bullnose corners intersect at angles greater than 90° or open angles. This product works great to corner cap windows, closets, doorways, skylights and other areas. Corner caps eliminate the need for mitering and corner filling, saving time and reducing waste. Perforated to enhance mud adhesion. Alignment tabs make it easy to match with Phillips metal, vinyl or paper faced metal bullnose corner beads. Available in 3/4" (CAP235). Packaging is 50 pieces per carton.

**Part Number: CAP235**

3/4" Transition Caps

**Part Number: SEE TEXT**

1-1/2" Transition Caps

**Part Number: SEE TEXT**

## TRANSITION CAPS

Phillips gripSTIK® transition caps are designed to eliminate gaps between bullnose corner bead and baseboard or crown molding by transitioning bullnose corners to 90° corners. Phillips transition caps install quickly and easily using standard industry practice and can be used with Phillips metal, vinyl or paper faced corner beads. Perforated to enhance mud adhesion. Available in 3/4" Overlap Transition Cap (TRN790), 3/4" Transition Cap with Alignment Tab (TRN8590), 1-1/2" Overlap Transition Cap (TRN890) and 1-1/2" Transition Cap with Alignment Tab (TRN8790). Packaging is 50 pieces per carton.

**Part Number: CAP390**

**Part Number: CAP190**

## MORE TRASITION CAPS ARE AVAILABLE

Phillips has over 50 different corner and transition caps available. Call your Grabber sales representative to find out more.

# CertainTeed

SAINT-GOBAIN

## Easy-to-apply, High Performance, Drywall Corner Solutions.

CertainTeed's line of structural laminate corners — combined with water-activated corners and automation technologies — save money on call backs and are more aesthetically appealing over the long-term than conventional metal, paper faced metal, or vinyl beads. The durability and installation efficiency of these products make them ideal for both residential and commercial building applications.

**NO-COAT®**

The NO-COAT® Structural Laminate (SLAM®) design represents a revolutionary drywall corner system that provides superior strength and durability, installs faster, and delivers bottom line savings in labor.

**AquaBead®**

Water-activated AquaBead offers fast, easy installation and outstanding performance, every time. Perforations allow compound to adhere to the drywall surface.

**LEVELLINE®**

LEVELLINE flexible rolls are ideal for off-angle and both short and long runs. Built-in flexible hinge fits any inside or outside corner angle and creates crisp, straight lines.

The NO-COAT® Structural Laminate (SLAM®) design represents a revolutionary drywall corner system that provides superior strength and durability, installs faster, and delivers bottom line savings in labor.

#### SLAM Technology – A Breakthrough in Drywall Corner Finishing

NO-COAT corners incorporate a tapered structural laminate design that consists of three key components:

1. Tapered copolymer core capable of withstanding severe impacts.
2. Joint tape that permanently bonds the corner to drywall with Taping or All-Purpose joint compound.
3. Formulated surface paper that eliminates cracks, chips and peels. Accepts any finish, resists abrasion.

#### NO-COAT SAVES LABOR

- Reduces installation time significantly
- Rolls and pre-cut lengths allow for fast application

#### A Radical Departure from Corner Bead

For more than 80 years, drywall contractors have reached for corner bead because it has been the only option available — not because it's the best product. Improvements such as plastic or paper faced metal are still based on a flawed bead design that create more problems than they solve. Beads are notorious in the industry for causing costly callbacks from denting, chipping, rusting, cracking and peeling. In addition, beads require excessive mud application that costs contractors time and money.

#### An Innovative Solution

NO-COAT structural laminate corners abandon corner bead design entirely. Instead, the SLAM design integrates new technologies and materials like dimensionally extruded copolymer plastic and formulated saturated paper. The result is a corner system that outperforms all others in the market.

**SLAM Technology integrates THREE KEY COMPONENTS providing the durability, flexibility, and strength that won't crack under pressure.**

**TAPERED HIGH STRENGTH COPOLYMER CORE** withstands severe impacts. Won't rust. Requires less mud.

1.

3.

**FORMULATED SURFACE PAPER** eliminates cracks, chips and peels, resists abrasion, and accepts any finish.

2.

**JOINT TAPE** permanently bonds corner to drywall with All Purpose mud.

## The NO-COAT® Structural Laminate Drywall Corner System

### FLEXIBLE CORNERS

These flexible roll products are ideal for off-angle applications, both short and long runs, long columns and soffits. Wide flange covers large gaps and poor framing. Built-in flexible hinge fits any inside or outside corner angle and creates crisp, straight lines.

FLEXIBLE CORNER 325

FLEXIBLE CORNER 450

### STICKS

Pre-cut stick lengths withstand severe impacts, settling and seismic movements without cracking, denting, chipping or peeling. Easy to install lengths deliver perfect corners in record time.

INSIDE 90

OUTSIDE 90

L-TRIM – 1/2", 5/8"

BULLNOSE - 3/8", 3/4"

### ARCH

ARCH tape-on arches have notched flanges that flex and conform to any arch. Stiff profile fine-tunes poor framing and creates a perfectly smooth, round curve.

BULLNOSE 3/4"

OUTSIDE 90

### TOOLS

Rollers and applicators allow for high speed installations and flawless results.

ROLLERS – Inside and Outside 90, Bullnose, and One-Sided (L-Trim)

DOUBLE BARREL HOPPER – Install off-angles, inside and outside 90s or bullnose, in record time.

## NO-COAT STICKS

NO-COAT mud applied, easy-to-install stick lengths deliver perfect corners in record time. Apply with CertainTeed tools for high speed installations and flawless results.

### NO-COAT INSIDE 90

#### Description

NO-COAT INSIDE 90 corners make joint tape a thing of the past. Use the CertainTeed DOUBLE BARREL HOPPER and an INSIDE 90 Roller to ensure high speed installs and the best results.

#### Features/Benefits

- Pre-cut to standard lengths so installations are fast and efficient
- Built-in adjustable hinge
- SLAM® corner design ensures strength, durability, labor savings, and eliminates costly callbacks

#### Product Details

8', 9', 10' stick lengths  
(2.4 m, 2.7 m, 3 m)  
50 sticks per box

#### Applications

- 90° inside corners

### NO-COAT OUTSIDE 90

#### Description

One of our best selling products, NO-COAT OUTSIDE 90 corners are made with our patented SLAM design. These corners deliver strength, durability, and guaranteed perfect results for all vertical outside corner applications.

#### Features/Benefits

- Pre-cut to standard lengths
- Fast and efficient installs
- Built-in adjustable hinge
- SLAM corner design ensures strength, durability, labor savings, and eliminates costly callbacks.

#### Product Details

8', 9', 10', 12' stick lengths  
(2.4 m, 2.7 m, 3 m, 3.7 m)  
50 sticks per box

#### Applications

- 90° outside corners

### NO-COAT 1/2" L-TRIM

#### Description

NO-COAT L-TRIM corners are perfect for trimming ceiling, window, or door jamb corners.

#### Features/Benefits

- No masking required
- Strong enough to float 3/4" (2 cm) past end of drywall
- Large flange works on gaps up to 1" (2.5 cm)
- SLAM corner design ensures strength, durability, labor savings, and eliminates costly callbacks

#### Product Details

50 sticks per box

**Applications**

- 90° outside corners

## FLEXIBLE CORNERS

NO-COAT® flex roll products are ideal for off-angle applications, both short and long runs. Wide flange covers large gaps and poor framing. Built-in flexible hinge fits any inside or outside corner angle and creates crisp, straight lines.

### FLEXIBLE CORNER 325

#### Description

NO-COAT FLEXIBLE CORNER 325 offers the same durability and strength as FLEXIBLE CORNER 450, with a narrower flange width that makes it ideal for shorter off-angle spans.

#### Applications

- Short runs of less than 10 ft (3 m)
- Vertical off angle applications, stand ups
- 90° inside/outside corners

#### Features/Benefits

- Finishes short run off-angles of any length with straight, precise lines
- Built-in flexible hinge forms to any inside or outside corner angle
- Flange width hides irregular framing
- SLAM corner design ensures strength, durability, labor savings and eliminates costly callbacks

#### Product Details

3.25" wide x 100' roll  
(8.3 cm x 30.5 m)  
10 rolls per carton

### FLEXIBLE CORNER 450

#### Description

The world's #1 flex product has earned the reputation for delivering perfectly straight lines for challenging off-angles and long spans, while withstanding settling, shrinking lumber, seismic movements and temperature variations.

#### Applications

- Long peaks (spans > 10 ft [3 m])
- Vaulted, cathedral, tray ceilings
- Inside/outside corners of any length

#### Features/Benefits

- Extra stiff profile provides easy application for long spans
- Wide flange covers large gaps and poor framing
- Built-in flexible hinge adjusts to fit any inside or outside corner angle
- SLAM corner design ensures strength, durability, labor savings and eliminates

#### Product Details

4.5" wide x 100' roll  
(11.4 cm x 30.5 m)  
4 rolls per carton

## CERTAINTEED DOUBLE BARREL HOPPER

The Double Barrel Hopper is set up for all angles, all the time. Install off-angles, inside and outside 90s or bullnose, in record time. No time-consuming adjustments or extra hardware necessary.

### DOUBLE BARREL HOPPER

#### Description

CertainTeed has perfected this standard industry tool to accommodate all inside and outside angles without time-consuming part changeovers and reconfiguration.

#### Features/Benefits

- Eliminates part changes or reconfiguration — handles both inside and outside angles
- Ensures a uniform and high-speed installation
- Single piece gates with ergonomic hand knob allow for fast and easy adjustments

#### Product Details

- High density polyurethane tank and gate controllers
- Stainless steel reservoir trough and gates

#### Applications

- NO-COAT inside, outside, and bullnose corners
- Flexible Corner 450 and 325

High density  
polyurethane tank

High density  
polyurethane  
gate controllers

Heavy duty  
stainless steel  
construction

Stainless steel gates  
accommodate off-angles,  
inside 90s, bullnose,  
and outside 90s

## CERTAINTEED ROLLERS

CertainTeed rollers press corners firmly and accurately into place, creating an absolute bond to the drywall. Installations are faster and easier, delivering bottom-line savings on labor and mud.

### NO-COAT INSIDE 90

#### Description

CertainTeed rollers and applicators allow for high speed installations and flawless results

#### Applications

- NO-COAT Outside 90 corners

#### Features/Benefits

- Ensures high speed, accurate installations
- Squeezes out excess mud
- Taper matches exact corner profile for the maximum bond with the minimum amount of mud
- Highly durable. Stainless steel components provide extreme corrosion resistance

#### Product Details

- Stainless steel rollers with Nylatron and brass bushings
- Stainless steel frame and hardware

### BULLNOSE ROLLER

#### Description

CertainTeed rollers and applicators allow for high speed installations and flawless results

#### Applications

- NO-COAT and AquaBead Inside 90 corners and Flexible

#### Features/Benefits

- Ensures high speed, accurate installations
- Squeezes out excess mud
- Taper matches exact corner profile for the maximum bond with the minimum amount of mud
- Highly durable. Stainless steel components provide extreme corrosion resistance

#### Product Details

- Stainless steel rollers with Nylatron and brass bushings
- Stainless steel frame and hardware

### INSIDE 90 ROLLER

#### Description

CertainTeed rollers and applicators allow for high speed installations and flawless results

#### Applications

- NO-COAT 3/8" and 3/4" BULLNOSE corners

#### Features/Benefits

- Ensures high speed, accurate installations
- Squeezes out excess mud
- Taper matches exact corner profile for the maximum bond with the minimum amount of mud
- Highly durable. Stainless steel components provide extreme corrosion resistance

#### Product Details

- Stainless steel rollers with Nylatron and brass bushings
- Stainless steel frame and hardware

### ONE-SIDED ROLLER

#### Description

CertainTeed rollers and applicators allow for high speed installations and flawless results

#### Applications

- NO-COAT and AquaBead L-TRIM corners and Flexible off angles

#### Features/Benefits

- Ensures high speed, accurate installations
- Squeezes out excess mud
- Removable hex handle for handheld convenience
- Highly durable. Stainless steel components provide extreme corrosion resistance

#### Product Details

- Stainless steel rollers with Nylatron and brass bushings
- Stainless steel frame and hardware

### AQUABEAD OUTSIDE 90 ROLLER
