FASTENING SYSTEMS

TRAKFAST TF1200

- Gas Technology
- Fully Automatic
- 1-1/2" Pin Capacity
- 42 Pin Magazine Capacity
- Length: 15"
- Height: 17"
- Weight: 7.5 lbs.
- Maximum Capacity: 42 pins
- Maximum cycles/second: 2
- Fuel cell: 1000 shots
- Battery (charged): 3000 shots

ADVANTAGES

- **INCREASED DURABILITY AND RELIABILITY**
- **OFF POSITION TO PREVENT DRAINING THE BATTERY** when tool is not in use.
- **THREE TO FIVE TIMES FASTER** than powder tools. 42-pin magazine reduces load time.
- **EASY TO USE** . Tool automatically resets piston. No recoil, tool absorbs shock resulting in less operator fatigue.
- **NO LICENSING REQUIRED** . Unlike powder-actuated tools, no licensing is required.
- **NO CHANGING LOADS** . TrakFast uses a fuel cell, not a load. No need to inventory different colored loads.
- **NARROW NOSE & PROFILE** allows tool to reach inside deep leg track (1-5/8" wide x 2" high).
- **2 YEAR WARRANTY** (6 months on wearable parts).

FEATURES

Still the most revolutionary fastening system in the construction industry!

Since its introduction in 1991, TrakFast has been the tool of choice for both interior and exterior contractors. The TrakFast Automatic Fastening System fastens all types of track, from standard track to hat channel, deep leg, Z, and J channel. Contractors continue to report tremendous savings when using TrakFast for high production fastening. They have learned that TrakFast's actual cost in place beats all other systems. The increased speed and productivity of TrakFast allows the contractor to bid more competitively, complete the job sooner and move on to the next job. Anyone can use TrakFast—just load the pins and fire. It's that easy!

TrakFast ICC ESR-2579 is the only approval that allows you to fasten into any location on a hollow block wall and won't blow away block like a powder tool.

MOST COMMON FASTENERS

PIN #	PIN LENGTH		MOST COMMON APPLICATION
	IN.	(MM)	
FPP012S	1/2	12.7	Track to steel
FPP034B	3/4	19.1	Track to concrete

TrakFast's power comes from the battery and fuel cell

The 6-volt rechargeable Ni-CD battery can drive approximately 3000 shots per charge. The clean burning fuel cell can drive over 1000 pins and keeps the tool cleaner than powder actuated tools.

Fastening System Productivity

In the time it takes you to drive two pins with a powder tool, you can drive up to 10 pins with TrakFast!

APPLICATIONS

Track to steel

Lath attachment—using one-inch TrakFast discs and magnetic probe adapter

Furring attachment—perfect fastening every time in soft and hard base materials

Plywood attachment—using TrakFast plywood to steel pin

Track to concrete
