The new Ramset® **VIPER4** .27 Caliber Strip Powder Tool design makes overhead applications even easier. The load advance is now located internally to allow a push/sleeve actuated operation. *Compatible with the newly designed poles* the rear collar is connected by set-screw to avoid a manual tightness check.

Automatic load advance:

Load is advanced consistently each time the Viper is fired.

Automatic Piston return:

No time spent manually resetting or cycling the tool. Allows you to work faster.

Overdrive Protection:

Heavy duty buffer system prevents front end damage caused by piston overdrive—especially through sprayed-on insulation.

Open Front-end design:

Completely redesigned open-ended muzzle keeps your tool cleaner longer.

Simplified Barrel Retention Collar:

No tools are required for assembly or disassembly.

Uses NEW Viper pole system:

Works with four newly designed Ramset® poles for greater ease and accuracy.

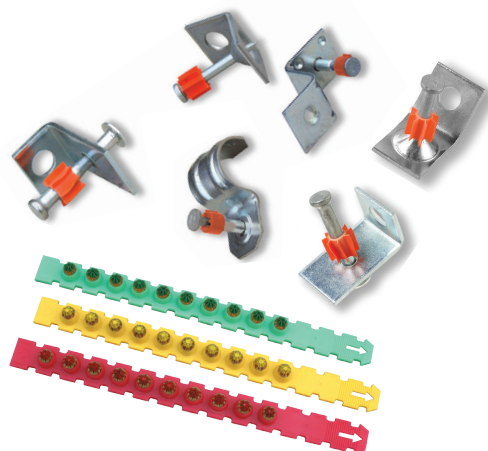

PART NUMBER	DESCRIPTION
V4-3	3' Pole
V4-6	6' Pole
V4-8	8' Pole
V4-EXT	3' Extension (no trigger)

**Telescoping poles are NOT available for the VIPER4.*

TOOL/POLE CONNECTION

The new poles have an internal rod, when activated by pushing on the pole sleeve triggers the new Viper.
