

Tam-Rail® Kit Selection Guide

The patented triple-layer Tam-Rail® Railing System is offered in convenient kits to help make installation fast and easy. To choose the right kits for your specific application, simply follow the detailed steps in this Kit Selection Guide.

1

Step One—Sketch the layout and dimensions of your deck

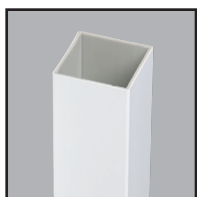

Use the graph paper on page 2 to determine measurements and the number of kits you will need.

2

Step Two—Select your straight and stair rail kits

Tam-Rail stair and straight rail kits are available with colonial or square balusters, in 6', 8' and 10' lengths and in 36" or 42" heights. Use the charts starting on page 3 to select the appropriate kits for your project. For stair rail applications, use the stair angle chart on page 2 to determine the appropriate stair kit you will need.

3

Step Three—Select your post kits

Post sleeves are not included in the straight and stair rail kits. Use the chart on page 6 to determine the right post sleeves for your application.

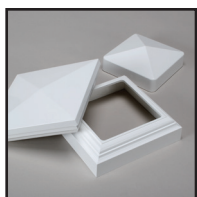

The Tam-Rail system is designed to 1) cover a standard 4x4 wood post 2) attach to a wood/composite deck without a wood post or 3) mount in concrete applications. See page 6 to determine the right post mount kit for your project.

4

Step Four—Select your special angle kits

If your application requires special angle brackets, use the chart on page 6 to choose the appropriate kits.

5

Step Five—Select your post caps and rings

Tam-Rail post caps and rings provide the perfect finishing touches. See page 7 for details.

6

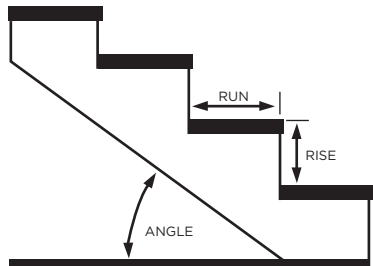

Step Six—Place your order

Take this sheet to your local distributor or contact TAMKO® at 1-800-641-4691 to find a dealer in your area.

1

Step One—Sketch the deck layout and determine your project's dimensions.

Please refer to the chart on the right to determine the appropriate stair kits.

2

Step Two—Select one of three railing height/baluster design options.

Please note: 36" is the common height for meeting code requirements in residential applications and 42" is the common height for meeting code requirements in multifamily applications.

All straight rail kits include top and bottom rails, square or colonial balusters, top and bottom metal brackets, top and bottom bracket covers, stainless steel screws, a crush block and a bracket placement template.

All stair rail kits include top and bottom rails, square or colonial balusters, top and bottom metal brackets, top and bottom bracket covers and stainless steel screws. The 8' stair rail kit also includes a crush block.

36" Kits with Colonial Balusters Colonial balusters feature beveled curves that add distinction. Select your required number of kits in the desired rail length.

Straight Rails		Contents			Product #	Color	# of Kits
6' x 36" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (14) Colonial Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets	(2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000974	White		
8' x 36" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (19) Colonial Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets	(2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000316	White		
10' x 36" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (24) Colonial Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets	(2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (2) Crush Block		31000318	White		

Stair Rails	Contents			Product #	Color	# of Kits
6' x 36" Stair Rail Kit (30°–35°)	(1) Straight Top Rail (1) Straight Bottom Rail (11) Colonial Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets	(2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws		31000334	White	
8' x 36" Stair Rail Kit (30°–35°)	(1) Straight Top Rail (1) Straight Bottom Rail (15) Colonial Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets	(2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000338	White	
6' x 36" Stair Rail Kit (36°–41°)	(1) Straight Top Rail (1) Straight Bottom Rail (11) Colonial Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets	(2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws		31000335	White	
8' x 36" Stair Rail Kit (36°–41°)	(1) Straight Top Rail (1) Straight Bottom Rail (15) Colonial Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets	(2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000339	White	

2

Step Two—Select one of three railing height/baluster design options. (Continued)

Please note: 36" is the common height for meeting code requirements in residential applications and 42" is the common height for meeting code requirements in multifamily applications.

All straight rail kits include top and bottom rails, square or colonial balusters, top and bottom metal brackets, top and bottom bracket covers, stainless steel screws, a crush block and a bracket placement template.

All stair rail kits include top and bottom rails, square or colonial balusters, top and bottom metal brackets, top and bottom bracket covers and stainless steel screws. The 8' stair rail kit also includes a crush block.

36" Kits with Square Balusters Square balusters create straight lines and a uniform appearance. Select your required number of kits in the desired rail length.

Straight Rails	Contents		Product #	Color	# of Kits
6' x 36" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (14) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000313	White	
8' x 36" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (19) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000315	White	
10' x 36" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (24) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (2) Crush Block		31000975	White	

Stair Rails	Contents		Product #	Color	# of Kits
6' x 36" Stair Rail Kit (30°–35°)	(1) Straight Top Rail (1) Straight Bottom Rail (11) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws		31000332	White	
8' x 36" Stair Rail Kit (30°–35°)	(1) Straight Top Rail (1) Straight Bottom Rail (15) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000336	White	
6' x 36" Stair Rail Kit (36°–41°)	(1) Straight Top Rail (1) Straight Bottom Rail (11) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws		31000333	White	
8' x 36" Stair Rail Kit (36°–41°)	(1) Straight Top Rail (1) Straight Bottom Rail (15) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000337	White	

2

Step Two—Select one of three railing height/baluster design options. (Continued)

Please note: 36" is the common height for meeting code requirements in residential applications and 42" is the common height for meeting code requirements in multifamily applications.

All straight rail kits include top and bottom rails, square or colonial balusters, top and bottom metal brackets, top and bottom bracket covers, stainless steel screws, a crush block and a bracket placement template.

All stair rail kits include top and bottom rails, square or colonial balusters, top and bottom metal brackets, top and bottom bracket covers and stainless steel screws. The 8' stair rail kit also includes a crush block.

42" Kits with Square Balusters

42" Rail Kits are available only with a square baluster design.

Select your required number of kits in the desired rail length.

Straight Rails	Contents		Product #	Color	# of Kits
6' x 42" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (14) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000319	White	
8' x 42" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (19) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000330	White	
10' x 42" Straight Rail Kit	(1) Straight Top Rail (1) Straight Bottom Rail (24) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (2) Crush Block		31000343	White	

Stair Rails	Contents		Product #	Color	# of Kits
6' x 42" Stair Rail Kit (30°–35°)	(1) Straight Top Rail (1) Straight Bottom Rail (11) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws		31000340	White	
8' x 42" Stair Rail Kit (30°–35°)	(1) Straight Top Rail (1) Straight Bottom Rail (15) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000342	White	
6' x 42" Stair Rail Kit (36°–41°)	(1) Straight Top Rail (1) Straight Bottom Rail (11) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws		31000341	White	
8' x 42" Stair Rail Kit (36°–41°)	(1) Straight Top Rail (1) Straight Bottom Rail (15) Square Balusters (2) Top Rail Metal Brackets (2) Bottom Rail Metal Brackets (2) Top Rail Bracket Covers (2) Bottom Rail Bracket Covers (13) 1" Stainless Screws (13) 2" Stainless Screws (1) Crush Block		31000343	White	

3

Step Three—Select your post kits.

Post sleeves are available to cover 4x4 wood posts and enhance the look of your railing system. Post mount options are also available for use on a wood/composite deck without a wood post or on concrete applications.

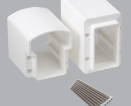

Post Sleeves	Contents		Product #	Color	# of Kits
4" x 4" x 38" Post Sleeve Kit	(1) Post sleeve		31000344	White	
4" x 4" x 48" Post Sleeve Kit			31000345	White	
4" x 4" x 116" Post Sleeve Kit			31000343	White	

Post Mount Kits	Contents		Product #	Color	# of Kits
4" x 4" x 38" Post Mount Concrete Kit	(1) Post Mount Member (2) Guide Blocks (1) Concrete Accessory Kit		31000948	White	
4" x 4" x 44" Post Mount Concrete Kit			31000949	White	
4" x 4" x 38" Post Mount Wood Kit	(1) Post Mount Member (2) Guide Blocks (1) Wood Accessory Kit		31000309	White	
4" x 4" x 44" Post Mount Wood Kit			31000350	White	

4

Step Four—Select your special angle adapter kits.

If your application has unique horizontal angles, you will need to select the appropriate angle adapter kits.

Individual Angle Adapter Kits	Contents		Product #	Color	# of Kits
45° Center Fixed Angle Adapter Kit	(1) Top Rail Angle Adapter (1) Bottom Rail Angle Adapter		31000945	White	
22.5° Left Fixed Angle Adapter Kit	(1) Top Rail Angle Adapter (1) Bottom Rail Angle Adapter (1) Hardware Pack		31000946	White	
22.5° Right Fixed Angle Adapter Kit	(1) Top Rail Angle Adapter (1) Bottom Rail Angle Adapter (1) Hardware Pack		31000947	White	
Multi-angle Bracket Kit	(1) Top Rail Bracket (1) Bottom Rail Bracket (1) Hardware Pack		31000354	White	

5

Step Five—Select your post cap and rings.

Post caps and the New England-style post ring provide the perfect finishing touches.

Post Caps and Rings	Contents		Product #	Color	# of Kits
4" x 4" Pyramid Post Cap	(1) Pyramid Post Cap		31000355	White	
4" x 4" New England Post Cap	(1) New England Post Cap		31000356	White	
4" x 4" New England Post Ring	(1) New England Post Ring		31000358	White	

6

Step Six—Place your order.

Take this sheet to your local distributor or contact TAMKO® at 1-800-641-4691 to find a dealer in your area.
