

ULTIMATE SLIDE BOLT ASTRAGAL

The Ultimate Slide Bolt Astragal delivers simple operation, leak-fighting sealing power and built-in security for lasting protection, value and peace of mind.

- ▶ **Simple Sliding Bolt Operation:** Slide to engage. Slide to retract. That's it.
- ▶ **Security Comes Standard:** When each of the astragal's 18" bolts are engaged, the inactive door is secured in place. No extra locking steps necessary.
- ▶ **Leak-Fighting Performance:** Spring-loaded Floating Boot works with pre-installed Simple Solution® Corner Pad and weatherstrip to fight air and water infiltration.
- ▶ **Easy Hardware Customization:** 4-way adjustable strike retainers feature Snap-n-Size™ functionality and can be easily removed, resized and repositioned without additional cutting tools to accommodate various hardware sizes and styles.

HOW DOES IT WORK?

SLIDE TO ENGAGE.

Each bolt engages with a simple sliding action. Spring-loaded Floating Boot seals, independently from the bolt, against the sill to fight air and water infiltration even in imperfect conditions.

SLIDE TO RETRACT.

Each bolt retracts with a simple sliding action. Spring-loaded Floating Boot lifts clear of the sill preventing wear and damage, allowing problem-free use of the inactive door.

ULTIMATE SLIDE BOLT ASTRAGAL

SNAP-N-SIZE™ STRIKE RETAINERS

REMOVE.

Innovative strike retainer design allows effortless removal from the astragal. Simply snap out to remove. No extra steps required.

RESIZE.

Built-in break lines allow easy resizing. No tools necessary.

REPLACE & REPOSITION.

Snap the strike retainer pieces into the astragal and position as needed to meet your hardware needs.
