DO NOT MIX Notification | ProEdge® AR Hip & Ridge Shingles – Onyx Black, Driftwood, & Estate Gray

Dear Valued Customer:

We are changing the production location for three colors of ProEdge® AR Hip & Ridge Shingles to help improve product availability and service times. This production change will result in a “DO NOT MIX.” Beginning in late July, we will ship ProEdge® AR Hip & Ridge Shingles in Onyx Black, Driftwood, & Estate Gray from this alternative location on a rolling basis. The following plant service areas will be affected until further notice:

- Portland, OR
- Minneapolis, MN
- Summit, IL
- Brookville, IN
- Medina, OH
- Kearny, NJ

The product change can be identified by the lot number on the wrapper and will be labeled with “DO NOT MIX” stickers (like the one pictured to the right) on two sides of each pallet for a period of 90 days following the change.

To differentiate between existing and new production locations, note the following changes to lot numbers:

ProEdge® AR Onyx Black

Existing Lot Number: MED113
New Lot Number: IRV0120

ProEdge® AR Driftwood

Existing Lot Number: MED113
New Lot Number: IRV0120

ProEdge® AR Estate Gray

Existing Lot Number: MED113
New Lot Number: IRV0120

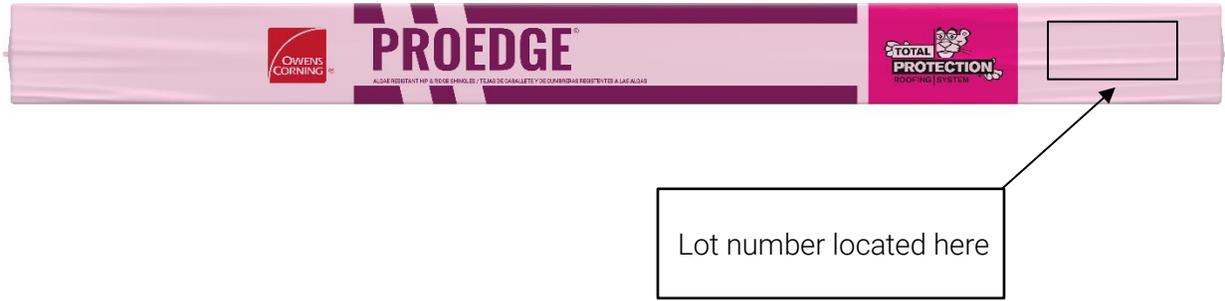

OWENS CORNING ROOFING AND ASPHALT, LLC

ONE OWENS CORNING PARKWAY

TOLEDO, OHIO 43659

419.248.8000

Lot numbers can be found near the UPC code printed on the sides of each product bundle (like shown in the figure below). To minimize potential confusion, we encourage you to FIFO (first in, first out) existing inventory on these colors.

Thank you for your support of Owens Corning. Please contact your Owens Corning Area Sales Manager, email answers.roofing@owenscorning.com, or call 1-800-GET-PINK® (1-800-438-7465) with any questions.

Sincerely,

Eric Haywood
